## Integrates with business enterprise tools

Integrate seamlessly with your enterprise tools. Whether it's merging the Active Directory system for single sign-on or any one of hundreds of other third party tools, EchidNET is the one interface that brings it together for a superior user experience.

### COMMUNICATE

Manage, produce and publish with EchidNET's powerful administration tools.

### COLLABORATE

Stay organized, up-to-date and accessible, with EchidNET technology.

### ENGAGE

Motivate staff or move training online, remove other barriers to productivity with EchidNET.

## COMMUNICATE

Write posts and updates, share files, “like” and comment, while keeping your brand intact.

Standard features:

- News, articles, blogs, and more
- Messaging notifications
- Granular workflow and content governance
- Light-weight document management

## COLLABORATE

Group or organize users by departments, branches, or teams.

Find people, discussions and files easily. It’s enterprise ready – and can support 1,000’s of users.

Standard features:

- Public & private groups
- Document and asset sharing
- Forums for team discussions
- Content comment and like feature
- Subscribe and follow ability

## ENGAGE

Accessible on desktop or kiosk, and available to secured users via smart phones or tablets.

Play with features like gamified employee recognition badges or reward program, classified ads, quick polls, an idea lab or online corporate training programs.

Make your intranet a go-to destination, instead of just a document drive.

Standard features:

- Rich user profiles
- Staff recognition with achievements and badges
- Discussion forums
- Webforms
